Preview: Belgian gymnastics and table tennis federations were targeted in a cyber attack. The gymnastics federation confirmed that personal information including names, emails, phone numbers, and sports documents were extracted. A threat actor claims to have stolen data of over 66,000 members and 17,000 users from the table tennis federation, though this claim remains unverified.

[Cyber Attack] Everett, Massachusetts, closes City Hall after cybersecurity incident

Date: 2026-09-08 13:17 · Network: openweb · UUID: 2cc844f2-dfd8-5c75-ba58-66b6ae622d0c
Victim: Everett — USA — Unknown — cityofeverett.com
Preview: The city of Everett, Massachusetts, closed its City Hall following a cybersecurity incident that affected its internal systems. The city discovered the incident on Sunday evening and began working with cybersecurity experts. Although City Hall was closed, emergency services, online payments, and public services operations (police, fire department, etc.) continued normally. The city has not yet specified the initial access method, whether data was compromised, or whether a threat actor has been i…

[Malware] Alleged UAC-0099 malware campaign using reverse jailbreak technique against AI-based malware analysis tools

Date: 2026-09-03 05:57 · Actors: UAC-0099 · Network: telegram · UUID: 45d3d851-d855-4a11-a4ae-99a9fbf3d8b5

Victim: Unknown — Unknown — Unknown — Unknown

Preview: ESET researchers discovered a malicious script associated with threat actor UAC-0099 that embeds hidden content within code designed to manipulate AI systems during malware analysis. The technique, termed reverse jailbreak, exploits AI security limitations to cause analysis tools to skip malware examination or focus on incorrect sections. This represents an emerging evasion technique targeting AI-based threat detection systems.
